For us, this means caring for employees and ensuring their suitable and safe working environment, respecting international and domestic standards in the field of work and human rights, fair treatment of customers and suppliers, attentive attitude to nature and the environment in which we operate.

We understand social responsibility as caring for society and the natural environment through transparent and ethical action that:

- complies with applicable law and with international standards of operation,
- is integrated throughout the organization and is used in all its relationships.

At the same time, we are committed to further implement such understood social responsibility within the company's operations and as part of the organizational culture to the optimal extent that our business environment allows.
